ABSTRACT TEMPLATE

Please format your abstract according to the following template. Abstracts that are incomplete or incorrectly formatted will be returned to the corresponding author. Please pay special attention to the format of citations and reference lists. Please only include sources cited in the abstract.

Abstracts should contain the following elements: a central argument, methodology, and some (preliminary) conclusions. All citations should be accounted for in a list of references. Submissions that do not comply with these requirements will unfortunately be rejected.

FULL TITLE OF THE PAPER

First name(s) SURNAME (e-mail address)
Department/Institute, University, Place, Country
[Please repeat for all authors/presenters]

Write your abstract in block style in Palatino Linotype size 11. The line spacing should be single. Cite single authors as surname (year:page) or (surname year:page); e.g. De Schryver (2023:19) or (De Schryver 2023:19). If you cite a publication with two authors, please do it as follows: surname1 & surname2 (year:page) or (surname1 & surname2 year:page); e.g. Gouws & Prinsloo 2005:40 or (Gouws and Prinsloo 2005:40). More than two authors are cited as surname1 et al. (year:page) or (surname1 et al. year:page), e.g. Vrbinc et al. 2025:470 or (Vrbinc et al. 2025:470). When referring to the publication as such, you can leave out the page numbers, e.g. Wiegand (1989). When referring to several page numbers, you can use "page-page", e.g. Prinsloo (2017:21-22). When referring to a website or publication that has an organisation, institution, etc. as an author, please cite as follows: Organisation name year, e.g. Department of Education (2002) or (Department of Education 2002). Lexicographic products can be referred to by the editor(s) or by the title, e.g. Otlogetswe & Ramaeba (2024) or Merriam-Webster (2025).

In your Afrilex abstract, the first line of every paragraph after the first paragraph should be written with a left indent of 0,5 cm. Tables and figures should be centred. Enumerated lists do not need to be indented.
If you list linguistic examples of languages other than English, please provide English translations.

Paragraphs after figures or tables should not be indented. Please limit screenshots (for space reasons) and keep the number of figures to a minimum. However, do not minimize figures too much: Remember that while you write this on A4-pages, the book of abstracts will be printed on A5. If you are unsure about the instructions, you may consult the AFRILEX 2025's abstract booklet as an example or contact afrilexabstracts@gmail.com.

Lastly, your abstract should be between 600 – 800 words (MS word count), everything included – also the "References" section, see an example below. Please do not use footnotes, if unavoidable, you may use endnotes instead. Endnotes should be font size 9.
